

## ***VNCH Heals in Many Ways***

**Patients need care** and, often times, the care that makes their condition or state of mind improve is not found in a clinic or a hospital. In a modest building in Arlington, MA, away from waiting rooms with outdated magazines, is where you will find **Visiting Nurse and Community Health (VNCH)**. By definition, VNCH is a visiting nurse agency but, in actuality, it is a connection to patients, families and caregivers that impacts an array of lives in a positive and healing way.

At VNCH, we see a person as more than one part, more than one ailment, more than one condition. Even though one particular issue may need attention at the present time, we strive to look at the person as a whole. Clinicians strategize about the best way to treat a patient's clinical needs by looking at the entirety of that individual. What makes that person tick? What makes him or her laugh, smile and be happy?

VNCH is celebrating our new Hospice Care program, as through this mission we will have the ability to reach into the hearts of our patients and families who are dealing with end-of-life issues. Many people prefer to pass away in the comfortable and safe environment of home, if possible. In order to do so they need support, as do their families, to help with the often challenging medical and emotional needs that arise. **We are hosting our 2nd Annual Golf Classic to raise funds for this Hospice Care program**, which will bring peace into the lives and homes of a mom, dad, brother, sister, grandparent, and/or neighbor.

**Thank you for helping us support our Hospice Care program and the human spirit as we help guide people of all ages through their final days with dignity and compassion.**
